Self Measurement Form

KEY: Jacket measurements Kilt measurements General measurements

Do not add anything to any dimension

Around Chest/Bust

1 Measure at fullest point under arms making sure the tape is well up at the back over the shoulder blades

Around Waist

2 (natural waist)

Crown to Cuff (Sleeve length)

3 Ideally measured with a jacket on for accuracy with arms down by your side

Waist

4 Start your measuring over shirt only, 1.5 to 2 inches above the hip bone (about 1 inch below rib cage) snugly around your waist

Length

5 Start measuring 1.5 to 2 inches above your hip bone to the top or middle of your knee (whichever ever you prefer length wise)

Seat

6 Measure round your seat at the heaviest part, add 4 fingers inside the tape to avoid getting this measurement too tight as the seat should be an easy measurement. (no wallets etc. in pockets)

Height

A This measurement is important since it is a second check for us.

Collar (Shirt)

B

Shoe Size

C

Suit Size

D Very important: What suit size would you buy? (eg. 42" Short, Regular or Long fitting)
